## KEY FEATURES

- BS EN B6 Protection Level:** Comprehensive armoring of the passenger compartment and engine bay, offering protection against ballistic threats.
- Heavy-Duty Modification:** Equipped with large off-road wheels with special composite inserts, heavy-duty independent suspension axle system with large disk brakes for reliability in demanding environments.
- Special Equipment:** Features LED strobe lights, a siren/PA system, and LED searchlights to enhance operational readiness.
- CTIS (Central Tire Inflation System):** Allows for on-the-go tire pressure adjustments, optimizing performance in different terrains.
- Automatic Transmission & Portal Axles:** Providing high ground clearance and smooth handling in challenging conditions.
- Versatile Configurations:** Available in cargo or pickup versions, allowing customization to meet specific mission requirements.

The **STARK HMV 4x4 (Light Armored Multi-Purpose Vehicle)** by **STARK MOTORS**, developed in collaboration with **KIA Defense Motors**, is specifically designed for fast and safe transportation of VIPs, high ranked officers and commanders during law enforcement, border patrol and private security operations. This compact yet robust vehicle ensures secure transport for up to four passengers, providing advanced protection, mobility, and comfort for both urban and rural off-road missions.

The **STARK HMV 4x4 LAMPV** combines compact size, comfort, high-level protection, and customizable features, making it the ideal choice for high-risk operations. It's a durable and reliable armored vehicle, perfect for VIP commanders and officers in need of a robust solution.

Ar-Rayyan, Industrial area, Bld. 435, Street 150, Zone 57.
